

Indicator 1: Graduation Rate

This is a results indicator that provides the percentage of youth with IEPs graduating from high school with a regular diploma (20 U.S.C. 1416 (a)(3)(A)). States must report using the adjusted cohort graduation rate required under the ESEA.

The adjusted cohort graduation rate is the number of students who graduate in four years with a regular high school diploma divided by the number of students who form the adjusted cohort for the graduating class. From the beginning of 9th grade, students who are entering the grade for the first time form a cohort that is subsequently "adjusted" by adding any students who transfer into the cohort later during the 9th grade and the next three years and subtracting any students who transfer out, emigrate to another country or die during the same period.
